

Just Make It Happen

Pyramid of Support

1 ACCESSIBILITY

1

No need to travel away from home to enjoy professional, quality performing arts events. The Just Make It Happen series provides the local community with easy access to such performances.

3 COMMUNITY

3

Through event ticket sales, any local non-profit organization can become a Just Make It Happen "ticket sales partner," which allows them to make a generous profit for each ticket sold by their specific group.

2 LOCAL ARTS

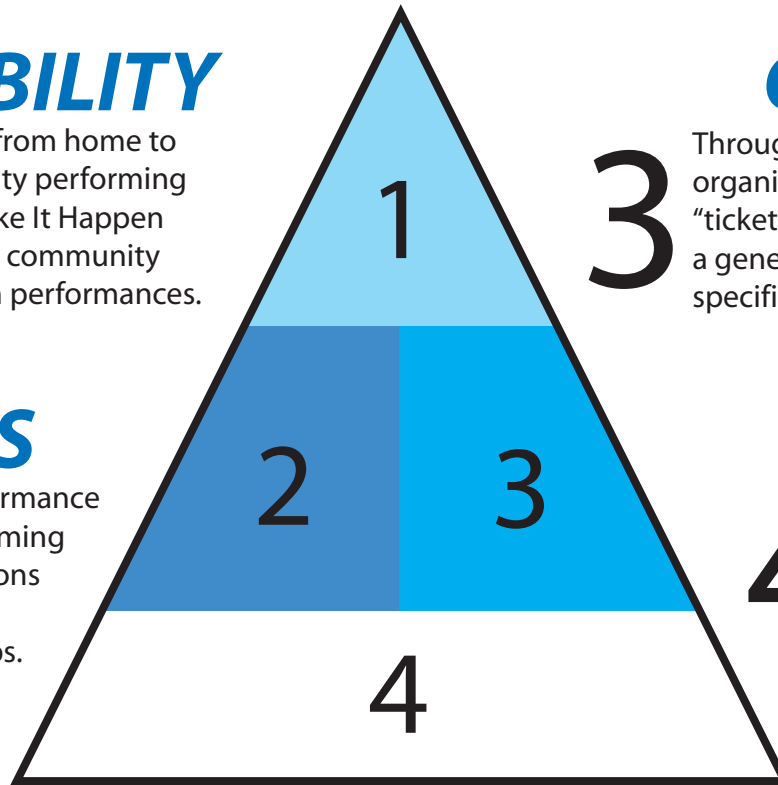

2

Just Make It Happen provides performance opportunities to community performing arts groups during event intermissions and through special events, such as open stages and learning workshops.

4 GIVING BACK

4

Each scheduled Just Make It Happen event directly benefits a different chosen county-wide entity. Proceeds from each event are donated to the chosen charity for that specific event.

The main organizational objective of Just Make It Happen Productions is to "Support the Arts Locally" on every level.

Above the "Pyramid of Support" visually demonstrates how Just Make Happen supports the performing arts locally from top to bottom by providing accessibility to professional, quality performances, by supporting community performing arts groups, by helping community non-profit organizations raise funds and by giving back to the community through the charitable donation of all event proceeds.
